Title: Notice of Proposed Outdoor Laser Operations

Form Numbers: FAA Form AC 7140-1

Type of Review: Reinstatement of an information collection

Background: The FAA will use the information gathered from laser operators planning to conduct outdoor laser operations to evaluate potential hazards to aircraft operating in the National Airspace System (NAS). Ultimately, the goal is to prevent an aircraft from being hit by the laser operation. The information will be reviewed by one of the three FAAs service centers and sent to the facility, which can be a Tower, TRACON or Center, that is being impacted by the operation. The facility will review the proposed operation and state no objection or list an objection to the operation. If the facility lists an objection, then the service center will contact the proponent and see if adjustments can be made to the proposed operation.

Respondents: Approximately 405 laser operations.

Frequency: One time per laser operation.

Estimated Average Burden per Response: Approximately 4 hours per form.

Estimated Total Annual Burden: An estimated 1,620 hours.

Issued in Washington, DC on August 24, 2017
